1. Introduction

Today's cryptocurrency and digit al asset activities are already a growing reality and will increasingly become an integral part of our daily lives. The world as we know it is in a state of constant and accelerated change. The ability to have borderless commerce and communication through the internet has already caused an immeasurable change in the way individuals handle their lives, finance and security. As this digital trend deepens, everyone independent of origin or social status will be given the empowering opportunity to participate in decentralized digital economies powered by blockchain technology and cryptocurrencies.

Decentralized economies powered by cryptocurrencies enable people and businesses to conduct trustless, anonymous and secure transactions across national borders. New opportunities for retail, entertainment, finance and essentially anything else that a person might want to spend fiat currency on, are already available in this digital economy today Today we would like to introduc e you to PeConnect.

Pe Connect is that trusted gateway for blockchain and the emerging decentralized economy, by providing a safer, faster and smarter cryptocurrency experience for all users to enter and thrive in this new decentralized economy. Guided by an integrated and dynamic thinking, our blockchain platform allows users to have access to countless products and services that are indispensable on a daily basis, including crypto wallet, currency swap, web browser, exchange, staking, Lending and payment channels and more. PeConnect was designed to solve your Investment in issue with crypto today. The crypto security problem and the user experience problem.

2. Features of PeConnect

2.1. Currency

2.1.1. Transfer instant Peer to Peer

Peer-to-peer itself means Pe Connect runs without having a central server. The storage server is decentralized and distributed-divided into various servers run by each user connected to the network.

2.1.2. Transfer money easily

It can be sent anywhere in seconds, whenever and wherever you want. Money transfer with PeConnect can happen only with a smartphone's and internet connection.

2.1.3. Transfer fee is very small to zero

Transfer fee can be removed until free, but to speedup transactions, you can set the cost in PeConnect wallet as needed no matter how much coin is sent.

2.2. Exchange

2.2.1. Pe Connect Swap and Exchange

The cryptocurrency Swap is a major feature and use case for PeConnect and its ecosystem of apps. Our Swap enables PeConnect users to directly swap one coin or token to another, from one blockchain to another (e.g. BTC to TRX or ETH) with high security, full privacy and unrivaled speed.

PeConnect Spot Exchange was designed for both beginners and advanced traders. Using the latest gRPC technology, we have built one of the most advanced crypto currency exchanges in the world, which is capable of providing superior security and intuitive user experience, and able to support 1M+ transactions per second.

2.3. Wallet

2.3.1. PeConnect Wallet

PeConnect comes with an array of wallets for desktop, iOS, Android, and web applications. PeConnect Wallets provide all necessary features for the comfortable daily use of the cryptocurrency and do not require much space on your PC or smartphone PeConnect wallet is same as WalletHash, because it is based on HRC-20 Contract

2.4. Payments

2.4.1. Privacy and Security

No central server, no personal information captured, and no data mining. Your data cannot be stolen or sold, because nobody other than you has it. Data is distributed across the nodes with redundancy and context based dynamic encryption.

2.4.2. NO Fees and NO Restrictions

For most users, products, and services it's free for both buyers and sellers. No commissions, no fees. Arrange for local pickup on PeConnect online with the payment method of your choice including PeConnect tokens, or other crypto currencies. Since your data is only yours, we are not imposing any limitations and restrictions on items that can be bought and sold

2.5. Lending

Cryptocurrency lending refers to the process of loaning fiat money or a stable digital asset for a fixed period of time and an interest rate. The lending process typically involves two or three parties: a borrower, a lender, and a platform that connects both sides of the transaction. However, there are certain platforms that act as a lender themselves.

Investors approach these platforms to borrow money using their assets as collateral. Depending on the platform, a lender can set specific parameters for borrowers to consider such as the duration of the loan, the interest rate and the minimum amount required HASHPE
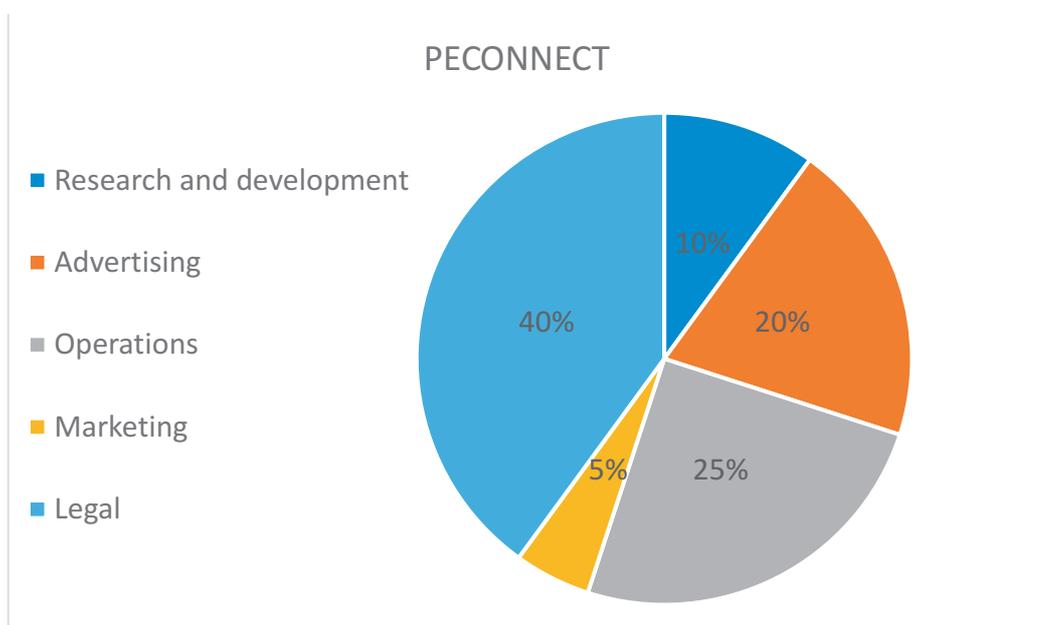

2.6. Technology

2.6.1. HRC 20

HRC–20 is a technical standard used for smart contracts on the HASHPE blockchain for implementing tokens with the Ether Virtual Machine (EVM). It is fully compatible with ERC-20. TechnologyHRC-20 is a set of contract standards for the issuance of token assets, contracts written in compliance with this standard are considered to be a HRC-20 contract. When wallets and exchanges are docking the assets of the HRC–20 contract, from this set of standards, you can know which functions and events the contract defines, so as to facilitate the docking HashPe.

Token Name	: PeCONNECT
Coin Abbreviation	: PEN
Maximum Supply	: 100,000,000,000
ICO Supply	: 100,000,000
Algorithm	: HRC-20
Accepted	: HASHPE(HPE)
ICO Rate	: $ 0.1
Exchange Rate	: 1 USDT
Contract Address	: 0x5eD12EF0162535fd71192b491393564A98D48AF8

All collected funds shall be received and stored on wallets with multi-signatures. Pre ICO-Token Sale Pre-Sale Fund Distribution.
